Marijn van der Zee

Scrum Master (independent contractor, available)

marijn@serraict.com

Summary

I love to guide software teams on their journey to deliver valuable software and becoming a great team. I enjoy working with the team, but as important is helping the organization to create an environment where teams can shine.

I am a Scrum Master, agile developer, pragmatic student, team player and coach and have been active in the field of software development for well over ten years.

Experience

Owner at Serra ICT Diensten
November 2009 - Present

   Serra helps organizations to grow great software teams that reliably deliver valuable software.
